1. AIMS

Kensington Park School aims to ensure that any prospective student who fulfils our admissions requirements, is able to come to the School, without discrimination and irrespective of personal disability or special educational need, on a case-by-case basis.

Our educational principles are built around providing a secure, collaborative, non-discriminatory and caring learning environment. Whilst we have collective aspirations for all our students to achieve and develop themselves, everyone is treated as an individual and places are offered within the School on a case-by-case basis, taking into account any reasonable adjustments the School can realistically make. We are therefore equally ambitious for our disabled students and staff.

2. LEGAL CONTEXT

This policy sets out the proposals of the School to increase access to education for disabled students in the three areas required by The Equality Act 2010 ("the Act"). The Act imposes a duty on the responsible body of a School to prepare an Accessibility Plan outlining how the School intends to improve access for disabled students to:

- Written information
- The curriculum
- The physical environment

Under the Act, disability is defined as a physical or mental impairment which has a substantial and long-term adverse effect on a person's ability to carry out normal day-to-day activities.

Treating every child as an individual is vitally important. We therefore welcome students with disabilities and special educational needs, providing that our Learning Support Department can provide them with the support that they require. We do not however, have the facilities to offer highly specialised and intensive treatment. We require parents of children with learning difficulties and/or disabilities to discuss their child's requirements with the Admissions Department before their child sits our entrance exam so that we can make appropriate provision. We also require, former school settings to share any documentation regarding pupil's special needs and arrangements.

The School's Admissions Policy reflects the Equality Act 2010 which harmonises and replaces previous legislation, including the Race Relations Act 1976, Disability Discrimination Act 1995, Gender Recognition Act 2004 and Sex Discrimination Act 1975. The Equality Act combines the

existing three duties into one new Equality Duty that covers all nine of the equality strands, known as protected characteristics: age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation. At KPS we will ensure that at every level, in all our work and throughout all aspects of the School community and its life, everyone will be treated equally.

An Accessibility Plan exists to record planned and completed work to demonstrate the School's commitment to continually improve access to its curriculum and facilities for those with accessibility needs. This plan is updated each term and reviewed by the KPS Advisory Board annually, and in intervening periods when circumstances dictate.

The Accessibility Policy should be read in conjunction with the following policies, strategies and documents:

- The Prospectus
- Senior School, Sixth Form and Boarding Handbooks
- The school's Admissions Policy
- Terms and Conditions
- Registration Form
- Reasonable Adjustments Policy (Included as an annex to the Accessibility Policy)
- Special Education Needs and Disability (SEND) Policy
- Health and Safety Policy
- The Equality Act 2010
- The Achievement, Behaviour, Rewards and Sanctions Policy

3. STATEMENT OF INTENT

KPS is committed to providing a non-discriminatory environment which values and includes all students, staff, parents and visitors, regardless of their educational, physical, sensory, social, spiritual, emotional and cultural needs. The Admissions Policy and Reasonable Adjustments Policy seek to remove barriers to entry for prospective students with special educational needs and/or disabilities, and the School strives to ensure that each and every student can take part in the whole School curriculum, including a broad range of co-curricular activities and School trips. The School takes a fully inclusive approach to staff recruitment and aims to appoint the best person based on their skills and qualifications, regardless of any disability they might have.

KPS seeks to work closely in partnership with parents in order to achieve the best outcome for all students at the School. It is therefore mandatory that parents disclose the needs of their child prior to entry to the School, as we feel it essential to have this knowledge in order to

best support individual students. Individual members of staff working with students who are identified as needing any adjustment (in order to enjoy effective access to the life of the School) are fully responsible for knowing the need of the student they are working with and acting in the ways recommended to address that need.

The School Accessibility Plan considers:

- The views and aspirations of those children receiving special provision. The School seeks to address issues raised e.g. inability to climb stairs on an individual basis as necessary.
- The views and aspirations of the parents of children receiving special provision e.g. through parent consultation evenings with a member of the SEND Department.
- The views of external surveying companies who have visited and assessed the School. Appropriate adjustments to buildings are built into the planned cycle of building works, prioritised as necessary by the Facilities Manager.

The School plans, over time, to increase the accessibility of provision for all students, staff and visitors in the following areas:

- To inform staff of their rights under equality law in all School recruiting adverts.
- To increase the extent to which disabled students can participate in the School curriculum by adapting curricular activities to ensure as much access as possible for all students.
- To improve the physical environment of the School to increase access to education by disabled students e.g. through appropriate use of technology to aid learning and to make disabled access as easy as possible.

To improve the delivery of information to students, staff, parents and visitors with disabilities, through clearly defined job descriptions, disability advice in staff handbooks and guidance given to Heads of Faculty and staff responsible for students or staff with disabilities.
